This is the end of my presentation. Thank you for your attention. If you have any questions regarding our cameras or the company, please tell us. We would be happy to answer any questions.

III. Reading comprehension (20%)

閱讀測驗：第 1 至 4 題，每題請分別根據各篇文章之文意選出最適當的一個選項。每題答對得 5 分。

After the creation of the Glacier National Park in Montana, the growing number of park visitors increased the need for roads. Eventually, the demand for a road across the mountains led to the building of the Going-to-the-Sun Road.

The construction of the Going-to-the-Sun Road was a huge task. After 11 years of work, the final section of the road was completed in 1932. The road is considered **an engineering feat**. Even today, visitors to the park marvel at how such a road could have been built. It is one of the most scenic roads in North America. The construction of the road has changed the way visitors experience the Glacier National Park. Visitors now can drive over sections of the park that previously took days of horseback riding to see.

Just across the border, in Canada, is the Waterton Lakes National Park. In 1931, members of the Rotary Clubs of Alberta and Montana suggested joining the two parks as a symbol of peace and friendship between the two countries. In 1932, the United States and Canadian governments renamed the parks the Waterton-Glacier International Peace Park, the world's first. More recently, the parks have received several international honors. They were named as a World Heritage Site in 1995. This international recognition highlights the importance of this area, not just to the United States and Canada, but to the entire world.

1. What made it necessary to build a road through the Glacier National Park?

- (A) There were too many parks in Montana.
- (B) The park was not sunny enough for visitors.
- (C) The existing mountain roads were destroyed.
- (D) More visitors were interested in going to the park.

2. How has the Going-to-the-Sun Road influenced the way people experience the Glacier National Park?

- (A) The scenery along the road is too beautiful for visitors to drive carefully.
- (B) It has become a marvelous experience for people to ride horses on this road.
- (C) The road has allowed people to see more of the park in a shorter period of time.
- (D) The transportation on the road was so difficult that few people could really enjoy the trip.

3. What does "an engineering feat" mean?

- (A) A big success in construction. (B) A magical building machine.
- (C) A great disaster for the travelers. (D) An enjoyable process for engineers.

4. What is special about the Waterton-Glacier International Peace Park?

- (A) It is where the glacier runs to the lake.
- (B) It is the first park funded by the whole world.
- (C) It is a special park built to protect wild animals.
- (D) It is composed of two parks located in two countries.
